Claims 6-8 are presented for examination.

The remarks filed on April 6, 2004 have been received and entered.

Claims 6 and 8 are again rejected under 35 U.S.C. 112 first paragraph for the reasons set forth on page 2 of the office action of January 6, 2004.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. The instant specification fails to adequately describe the compounds covered by the phrase "a compound having mG1uR1 antagonism" and the capability of such compounds in treating acute stage ischemic stroke. Since compound structure and activity for such pharmaceutical use must be determined from case to case by painstaking experimental study one of ordinary skill in the art would be burdened with undue experimentation to determine all compounds having mg1uR1 antagonism activity which would be capable of treating acute stage ischemic stroke.

Claim 7 is objected to as being dependent on a rejected claim.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
